Getting Started

Installing

The Zoiper App for Andriod can be downloaded from the Google App Store by searching Zoiper and downloading the Zoiper App.

Signing In

1. Login to the Voiceflow user portal and click on PBX -> Softphone from the menu at the top of the screen.

2. Click on "QR Code"

Extension	Zoiper Desktop Download	Mobile Provisioning QR Code	Description
100	Desktop Download	QR Code	John Smith

3. Open the ZoIPer app on your mobile.

4. In the ZoIPer app click on the button in the bottom left with this symbol

5. Your camera will open with instructions on the screen. Point the device at the given QR code and it will automatically be captured.

6. Once the QR Code has been scanned, your Zoiper app will auto-provision to your extension.
